

# How Safe is Air Travel

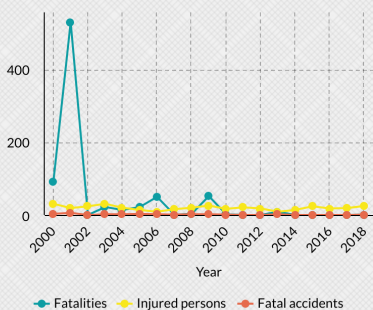

## Airline Fatalities

Casualties By Mode in 2017

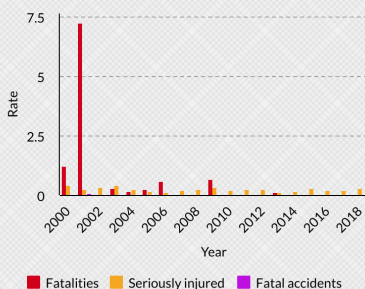

2017 transportation casualty figures show that individuals are far more likely to die on a highway, train or boat than in an airplane.

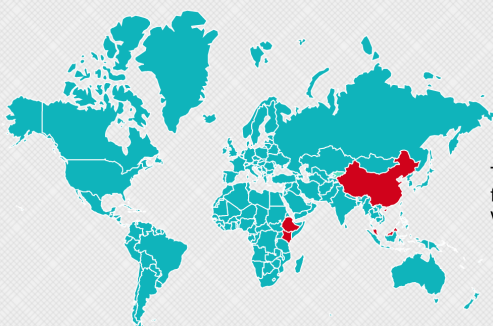

US Airline Fatalities - Count

US Airline Fatality Rate (per 100 million miles)

Airlines with most fatalities since 1985

Top 5 airlines with most fatalities are not from first-world countries

Airline fatalities(2000-14)

Most of the fatalities are caused by airlines operated by developing or under-developed countries
